

## CALCULATION OF CAPITAL GAINS DEDUCTION FOR 2011

**NOTE:** In this form, the text inserted between square brackets represents the regular print information.

Use this form if you disposed of **qualified farm property** or **qualified small business corporation shares** in 2011 or a previous year, or disposed of **qualified fishing property** after May 1, 2006. For the definitions of qualified farm property, qualified fishing property and qualified small business corporation shares, see the "Definitions" section in Guide T4037, "Capital Gains".

### Note

You have to be a resident of Canada throughout 2011 to be eligible to claim the capital gains deduction. For the purpose of this deduction, we also consider you to be a resident throughout 2011 if you were a resident of Canada for part of 2011 and throughout 2010 or 2012.

continue on next page →

Deferred capital gains from the disposition of qualified small business corporation shares **do not qualify** for this deduction.

If you have investment income or investment expenses in 2011, complete Form T936, "Calculation of Cumulative Net Investment Loss (CNIL) to December 31, 2011", before you complete this form. Form T936 lists what we consider to be investment income and expenses. If you are reporting a reserve claimed on your 2010 return or claiming a reserve for 2011, you also have to complete Form T2017, "Summary of Reserves on Dispositions of Capital Property". To get these forms go to **[www.cra.gc.ca/forms](http://www.cra.gc.ca/forms)** or call **1-800-959-2221**.

### **What is the capital gains deduction limit?**

If you disposed of qualified farm property or qualified small business corporation shares, or disposed of qualified fishing property after May 1, 2006, you may be eligible for the lifetime capital gains exemption (LCGE). Because you only include 1/2 of a capital gain in your income, your cumulative capital gains deduction is 1/2 the LCGE. The total of your capital gains deductions on dispositions from 1985 to March 18, 2007, of qualifying capital property could not be more than your cumulative deduction of \$250,000.

However, the capital gains deduction limit on gains arising from the dispositions of qualifying capital property after March 18, 2007, increased by \$125,000 to \$375,000 (1/2 of an increased exemption of \$750,000). For more information, see the section called "Claiming a capital gains deduction" in Guide T4037, "Capital Gains".

### **Qualified farm property, qualified fishing property, and qualified small business corporation shares**

When you dispose of qualified farm property, qualified fishing property, or qualified small business corporation shares and have a capital gain, you can claim a capital gains deduction in 2011 that is equal to one of the following amounts, whichever is **lowest**:

- your annual gains limit for 2011;
- your cumulative gains limit for 2011;
- your net taxable capital gains reported in 2011 from dispositions of qualified farm property, qualified small business corporation shares, and qualified fishing property disposed of after May 1, 2006; and
- your maximum capital gains deduction available for 2011.

There is an election available to you if you own shares of a qualifying small business corporation that stops being a small business corporation because:

- a class of its shares is listed on a designated stock exchange; or
- after 1999, another class of its shares is listed on a designated stock exchange.

This election will allow you to report a taxable capital gain on your return and claim the \$375,000 capital gains deduction, even though you did not actually sell your shares. The deduction applies to any gain you have on these shares to the date the shares are listed. To make this election, complete Form T2101, "Election for Gains on Shares of a Corporation Becoming Public". To get this form go to **[www.cra.gc.ca/forms](http://www.cra.gc.ca/forms)** or call **1-800-959-2221**.
